WHY CHOOSE VINYL

YOUR VERSATILE WINDOW SOLUTION

Aspect™ windows are constructed of SunShield® vinyl, made with a compound proven to perform better than alternative building materials. Vinyl ensures long-lasting color retention and low maintenance, plus the added confidence of a warranty against rotting, cracking, pitting, corroding and peeling. The vinyl is resistant to rot, insect and microbial damage, never requires painting and is easy to clean.

Low Maintenance

Vinyl windows are the low-maintenance choice for residential use.

Superior Weatherability

SunShield vinyl is uniquely formulated to withstand the harsh effects of weather, UV light and southern exposure.

Color Retention

Pharmaceutical-grade compounding and blending systems provide consistency, so you can rely on superior color and weatherability.

Designed to Perform

Industry partnerships and ongoing research into new technologies ensure the vinyl compound exceeds industry standards, outperforms the competition and works together to offer best-in-class technology.

Uncompromising Quality and Performance Testing

SunShield vinyl meets or exceeds the standards for strength and color retention established by the American Architectural Manufacturer's Association (AAMA).

STANDARD FEATURES

WHAT TO EXPECT WITH YOUR ASPECT WINDOW

Aspect windows can be completely customized to fit your exact style. Everything from the size of the window, the color, hardware finishes, glass packages and trim options can be chosen by you.

Design the windows for each room in your house differently, or if you prefer a simple, seamless look, your windows can all be the same. The design options available to you are virtually endless. The features below are standard on all Aspect window styles.

3¼" Frame Depth

SunShield® Vinyl

¾" ComforTech™ DLA for Dual Glaze

1" ComforTech TLA or
TLK for Triple Glaze (Upgrade)

Optimized Wall Placement for Exceptional
Thermal Performance

Notched Accessory Grooves for Ease of Installation
of Interior and Exterior Trim

Welded Frame and Sash Construction

Barrier-Fin and Bulb Weatherstripping

Roll Formed Aluminum Screen Frame with
BetterVue® Fiberglass Mesh

LIFETIME
— LIMITED WARRANTY —

SEE THE VIEW, NOT THE SCREEN

UNDERSTANDING YOUR SCREEN OPTIONS

BetterVue® Fiberglass Screen

Your Aspect™ window will come standard with a roll-formed screen frame with BetterVue fiberglass mesh. This screening product does for windows what high-definition technology has done for television viewing - it maximizes the view by making it sharper and more brilliant.

Your BetterVue fiberglass screen can be easily removed for regular cleaning and maintenance around the house. This screen is great for pool and patio enclosures to help keep the bugs out while maintaining high visibility. BetterVue screens provide great curb appeal, an enhanced view, increased insect protection and improved airflow. These screens are also very durable and flame retardant.

Standard Insect Screen

BetterVue Screen

OTHER SCREEN OPTIONS

FlexScreen®

This nearly indestructible screen with a hidden frame is available with either BetterVue or Heavy Duty mesh.

Simple Design
Easy to Use
Damage Resistant

Beautifully Invisible Frame
Lifetime Limited Warranty

SeeVue® Stainless Steel Screen

Much stronger than the standard insect screen, this stainless steel screen is excellent for window and patio door applications. It is black coated for improved visibility and allows superior airflow.

If you're looking for a stronger alternative to the BetterVue screen, upgrade to a SeeVue. This screen mesh is available in an extruded aluminum or roll-formed frame.

CHOOSE YOUR WINDOW TYPE

DOUBLE HUNG

Double hung windows are ideal in every room of the house since they are easy to open and clean. Both sash tilt inward, while the screen stays in place. Put two or more double hung windows in a row to create an aesthetically appealing look.

Features

- Roller-Tilt® Balance System
- Exterior Glazing
- Cove Sash Profile
- Triple Weatherstripping
- Two Surface Mounted Sculptured Sweep Locks and Tilt Latches
- Dual Vent Locks
- INNERGY® Thermal Sash Reinforcements

SLIDER

Slider windows are another classic found in many homes. These windows work well above the kitchen sink or in any room where ventilation is important. Slider windows work great by themselves or paired with picture windows.

Features

- Brass Rollers
- Exterior Glazing
- Cove Sash Profile
- Dual Weatherstripping
- Two Surface Mounted Sculptured Sweep Locks
- INNERGY® Thermal Sash Reinforcements
- Vent Lock
- Anchor Stops (standard on 3-Lite Sliders)

PICTURE

Picture windows are perfect for any room with a view. They help capture the beauty that surrounds your home, while complementing other windows. Pair several picture windows together to bring in the beauty of the outdoors.

Features

- Fully Welded Frame
- Direct Set Glass
- Interior Glazing
- Sloped Sill

CASEMENT & AWNING

Casement and awning windows add style and flair to your home, allowing the perfect amount of ventilation desired. Group casement and awning styles together to create a beautiful wall of operational windows.

Features

- Exterior Glazing
- Square Sash Profile
- Multi-Point Locking Hardware
- Washability Hinge (Casement)
- Quick-Release Dual Arm Operator (Awning)
- Optional Simulated Double Hung Meeting Rail (Casement)
- Fold-Away Handle

HOPPER

The hopper window is perfect for a basement, bathroom or laundry room, giving you adequate ventilation and natural light. These windows help add curb appeal to your home, providing light in a space that may otherwise be very dark.

Features

- Durable Top Mounting Lock and Hinge
- Available in White only
- Size Limits:
 - Width:
 - 16" to 30" with one handle
 - 30" to 48" with two handles
 - Height:
 - 12" to 32"

ARCHITECTURAL SHAPES

Architectural shapes will complement your home's unique style, while allowing more natural light to brighten up your space. Shaped windows look great above other styles of windows or they can easily accent a patio door.

Features

- Fully Welded Frame
- Direct Set Glass
- Wide Range of Shapes Available
- Optional Operating Octagon Shaped Window

See price list for more options and configuration styles.

GARDEN

The garden window looks great in a kitchen, bathroom or den, providing a perfect place for decorative accents or foliage and herbs. This unique window style not only allows more light in, but also helps open up your room.

Features

- Top Sloped Tempered Insulated Glass
- Completely Assembled with Unfinished 1¼" Oak Veneer Head, Jamb & Seat Board
- White and Beige Laminate Head, Jamb and Seat Board Available as an Upgrade
- Snap-In Corner Slope Closure Profile Seals Tight
- Twin Sealing, Fully Screened Operating Casements with Exterior Glazing
- Easy Access Dual-Point Locking Operator
- Fold-Away Handle
- Fiberglass FlexScreen®

BAY & BOW

Bay and bow windows look amazing in a living room or master suite, giving you the versatility to choose a combination of picture, double hung or casement windows. The seat on a Bay or Bow window is a great place to sit and read or just enjoy the view.

Features

- Bay: 3-Lite Unit with 2 Operable Windows with Screens
- Bow: 3, 4, 5 or 6-Lite Units with 2 Operable Windows with Screens

Roof Kits Available in wood, painted aluminum and copper.

Bay Window - Hip Style Roof

ENERGY SAVINGS, SIMPLIFIED

WHICH GLASS PACKAGE IS RIGHT FOR YOU?

FEATURING COMFORTECH™ WARM EDGE GLAZING SYSTEM

Most of your new window is glass. That's why we use the ComforTech Warm Edge Glazing System featuring Super Spacer® on all Aspect™ windows. This gives you less heat loss, warmer glass temperature and reduced interior condensation. All ComforTech products have passed stringent testing and are IG Certified to ensure seals are durable and will not leak.

The No-Metal Advantage

Thermal efficiency through no presence of conductive metals is the Super Spacer hallmark.

Mylar 10-Layer Vapor Barrier

The Super Spacer thermoset foam matrix is exceptional. Moisture is kept out, gas is kept in and conductivity is virtually nonexistent.

Lasting Appearance

Our Warm Edge Glazing System stands up to the natural bending and bowing from temperature changes, barometric pressure and wind load.

Enhanced Noise Reduction

The all-foam formula's excellent sound dampening properties reduce outside noise, even in industrial environments.

ComforTech™ TLK

ComforTech™ TLA

ComforTech™ DLA-HC

ComforTech™ DLA

WHAT'S THE DIFFERENCE?

Krypton Gas

- Lowest conductivity of any gas used
- Raises the inner glazing temperature
- Inert to glass coatings, heat and spacers
- Performs best in small chambers

Argon Gas

- Lower conductivity insulates better than air
- Sunlight stable, non-corrosive and non-toxic
- Chemically inert to UV radiation

ADD EXTRA PRIVACY AND TINT TO YOUR WINDOW

Privacy Options

Choose from five different types of glass if you need light to filter in, yet want to maintain privacy. These glass styles look great in bathrooms or any room where privacy is important. Regardless of where it is used, privacy glass reduces the likelihood of needing extra window coverings.

CHINCHILLA

TAFFETA

WATERFALL

GLUECHIP

OBSCURE PEBBLE

Actual privacy levels will vary depending on your distance from the glass and also the amount of light in the room in comparison to the light outside your home. For extra privacy, choose two panes of privacy glass, rather than just one.

Tint Options

Our tinted glass can help reduce UV transmittance, solar heat gain and glare. Tinted glass options can give a room a whole new look. Each color has its own unique set of benefits. Be sure to choose the right one for you.

Solargray® Gray Tint

- Excellent glare control
- Exceptional protection against interior fabric and color fading
- Ultraviolet light protection

Solexia® Green Tint

- Subdues interior brightness
- High visible light transmittance

Solarbronze® Bronze Tint

- High visible light transmittance
- Warm glow to interior decors
- Complements brick and stone facades
- Exterior subtle richness

Azuria® Blue Tint

- Low shading coefficient
- High visible light transmittance
- Solar performance (reduces solar heat gain)

STYLE YOUR WINDOW WITH GRIDS

The style of grids you choose can make a big impact on your home's appearance. Grids look great on the front side of a house or in accent windows throughout the home. You can choose from internal or external grids and several grid patterns including variations of Cottage, Colonial and Prairie styles

External Grids

Simulated Divided Lites (SDL)

Grids are applied to the glass on both the interior and exterior of the window.

Internal Grids

If you want grids, but prefer not to clean around them, opt for internal grids so you get the same look and feel, without the hassle.

Contoured

Flat

Pencil

Available in Satin Nickel, Brass and Bronze

Cottage

Colonial

Prairie

Internal and external grids are available in many configurations of Cottage, Colonial and Prairie styles.

Triple Glazed Glass

Internal grids with triple glazed glass are placed between two glass panes with the added efficiency of a third pane.

Double Glazed Glass

Internal grids with double glazed glass are placed between two panes of glass.

ADD INTERNAL BLINDS

If cleaning dusty blinds makes you cringe, be sure to add internal blinds to your windows. These blinds are made with sturdy, white aluminum and are custom-fit to the exact dimensions of each window.

Perfect for every room in your house, internal blinds can be lifted up to allow in maximum light or they can be tilted to offer some light while maintaining privacy needed in bedrooms or bathrooms.

Blinds can be added to Double Hung (top, bottom, or both sashes), Casement, Awning, Picture and Slider windows.

Internal Blinds come with a 10-year warranty.

Allow for additional lead time on your window order.

FINISH YOUR WINDOW WITH MASTERFIT™ TRIM

Add the finishing touch to the interior of your windows with the MasterFit trim system, complete with assembled frame extensions that interlock with mortise and tenon casing. Our MasterFit trim system guarantees a precise, custom-fit and long-lasting factory applied finish.
